

piRover Builds with K2

Scrum Standup Activity

Rev 1.1

Overview:

This lesson is your first experience with a Scrum Standup. Normally this sharing is provided verbally to a team. Due to the class being virtual and that this is your first exposure to this process, you will submit your update as a short video to the instructor.

Prerequisites:

Prior to beginning the instruction provided in this lesson you must have started the following:

1. piRover Build

Performance Outcomes:

1. Experience a Scrum standup
2. List the three questions answered during a standup

Resources:

1. <https://sprint.ly/blog/scrum-meeting-best-practices/>
2. <https://www.scrum.org/resources/what-is-a-daily-scrum>

Materials:

1. [Sample Scrum submission](#)

Directions:

1. The instructor will provide an overview of Agile/Scrum processes and discuss a “standup”
2. Use the resource link to learn more about scrum meetings.

Assessment:

1. None. You will create two scrum videos as part of your build process. Be sure to answer the three scrum questions as you create your post.
